

INDHUMATHI K
Java Frontend Developer

+91 78249 84181 | Tamil Nadu, India | Indhumathikalaiselvam@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Engineering graduate (B.E. Electronics and Communication, Anna University) with practical, self-directed exposure to Java, HTML5, CSS3, JavaScript, Bootstrap and MySQL, built through three end-to-end personal projects. Delivered a full-stack Online Bookstore Management System and an Employee Management System, each combining Java OOP logic with MySQL-backed CRUD functionality and responsive frontend interfaces. Comfortable applying object-oriented design principles, database connectivity, and responsive web design to translate business requirements into clean, maintainable, user-focused applications. Ready to bring this hands-on foundation in Java and frontend development to an entry-level developer role, contributing quickly while continuing to build depth in enterprise Java and database technologies.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, HTML5, CSS3

Frontend Technologies: Bootstrap, jQuery, Responsive Web Design

Backend: Java

Database: MySQL, Oracle (Basic), SQL

Tools & Platforms: Git, GitHub, Visual Studio Code, Eclipse

Core Concepts: Object-Oriented Programming (OOP), CRUD Operations, Database Connectivity

PROJECTS

Online Bookstore Management System | *Java, HTML5, CSS3, JavaScript, MySQL* | [GitHub](#)

- Built a web-based bookstore application enabling users to browse, search, and purchase books online.
- Designed responsive UI pages for catalog browsing, shopping cart management, and order checkout.
- Implemented core business logic in Java using OOP principles and connected the application to MySQL for inventory and order management.

Employee Management System | *Java, HTML5, CSS3, JavaScript, MySQL* | [GitHub](#)

- Developed an employee management application with add, update, delete, and search functionality.
- Created a clean, form-based frontend interface for HR staff to manage employee information efficiently.
- Applied Java OOP concepts to structure application logic and maintain reusable, readable code.

Mann-Vaasam E-commerce UI | *HTML5, CSS3, JavaScript, Bootstrap* | [GitHub](#)

- Designed and developed a responsive e-commerce storefront UI with product listings, category filters, and shopping cart layout.
- Used Bootstrap and custom CSS to create responsive pages across desktop, tablet, and mobile screens.
- Focused on clear navigation, consistent UI components, and user-friendly visual hierarchy.

Java Bank ATM System | *Java* | [GitHub](#)

- Built a console-based ATM simulation in Java supporting balance inquiry, cash withdrawal, deposit, and PIN validation.
- Applied Java OOP principles to model accounts and transactions with clean, modular class structure.
- Implemented input validation and error handling to prevent invalid transactions and maintain data integrity.

EDUCATION

B.E., Electronics and Communication Engineering

University College of Engineering, BIT Campus, Tiruchirappalli (Anna University) | 2018 – 2021

Higher Secondary / Schooling

Dr. J.C. Kumarappa School, Peravurani, Thanjavur (Dt.) | 2017

LANGUAGES

English, Tamil

ADDITIONAL INFORMATION

Career Level: Fresher | Target Role: Java Frontend Developer / Java Developer / Junior Software Developer
